

QUALITY & HSE MANAGEMENT SYSTEM (QHSE) POLICY STATEMENT

JTC is committed to providing quality services to our customers.
JTC is committed to upholding QHSE Standards in everything we do

JTC delivers on its commitments by:

- Focusing on **meeting specified customer requirements and ensuring continuous satisfaction** in all aspects of product quality and service deliverance.
- Striving to **exceed expectations** is a key goal for all our activities and rule out non-conformities.
- Ensuring **compliance** with all applicable legislation, regulations, international industry standards, and other internal and external requirements to which the company subscribes.
- Setting **QHSE performance objectives and metrics**– Aim to continually review and improve the **QHSE Management System** by minimizing environmental impact and pollution, preventing injury and ill health, and reducing health and safety risks.
- Ensuring **employees understand** the importance of quality and safety through effective communication.
- Ensuring employees possess the **right competencies** through training and performance appraisal.
- Employing **safe and responsible working practices** for the prevention of injury and ill health.
- Employing technologies that enhance the **value proposition** and our ability to achieve our goals.
- Ensuring our QHSE management **system is documented, implemented, and maintained**.
- Driving **continual improvement** of JTC's systems and overall performance through:
 - Proactively seeking and responding to customer feedback
 - internal measurement of performance using clear, defined objectives and performance metrics
 - effective processes for timely and appropriate corrective and preventive action
 - active participation of employees in improving what we do and how we do it.
 - internal audit of our QHSE management system
 - Third-party audit of systems for ongoing compliance with international standards, and
 - Frequent management review of QHSE Management System
 - Ongoing compliance with legal requirements and recognized international standards.
